

Watertight Charter Parties.

An independently operated Charter Party editing, automation and management solution.

unafix.
Charter Party Editor **Plus**

The modern Charter Party editor that **integrates and automates.**

Working with best-in-class Charter Party editing and management software saves hours per charter party, mitigates operational risk and enables you to maintain the highest quality of service. Anytime, anywhere.

Save time

Reduce the amount of time you spend on a charter party without making concessions.

Draft, verify and issue Charter Parties in minutes, not hours. Start from clean standardized forms, customized house forms or use smarter as per last.

Seamless workflow integration

Unafix fits perfectly in your existing workflows, bridging the gap between Chartering and Post-fixture Operations desks.

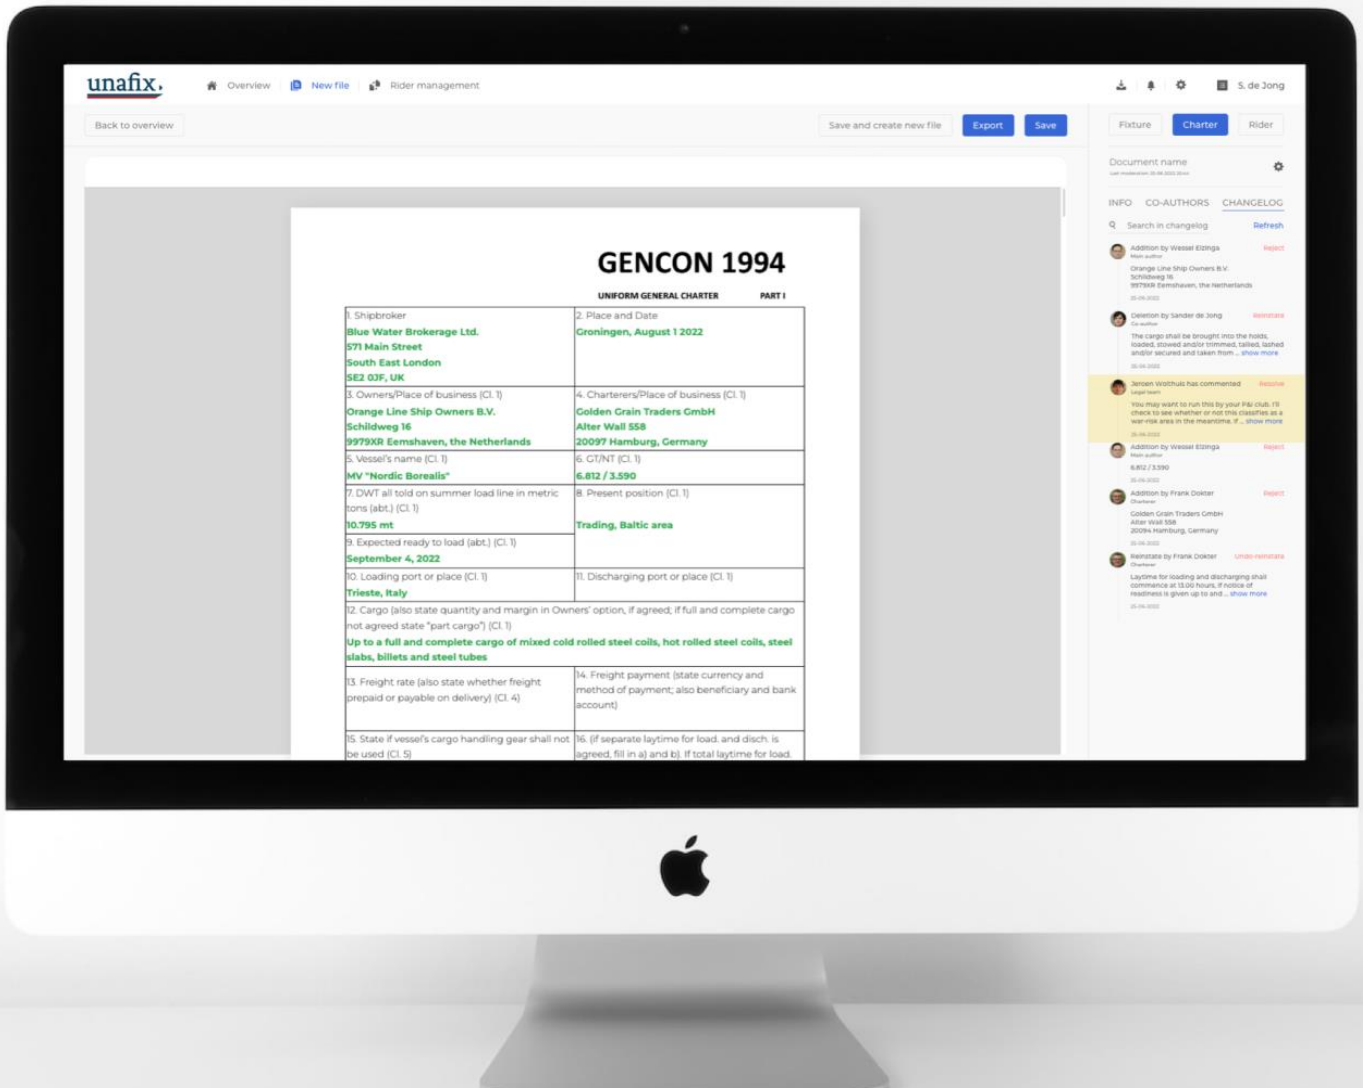

Work in real-time with your team, contractual partners or external advisors to produce optimal results.

Go the automation way

Use Unafix Recap Manager Pro to auto-fill Smart Charter Party forms with your Recap Data at the push of a button.

Go that extra automation-mile by integrating Unafix into your existing Freight Management Software and populate C/P fields directly therefrom.

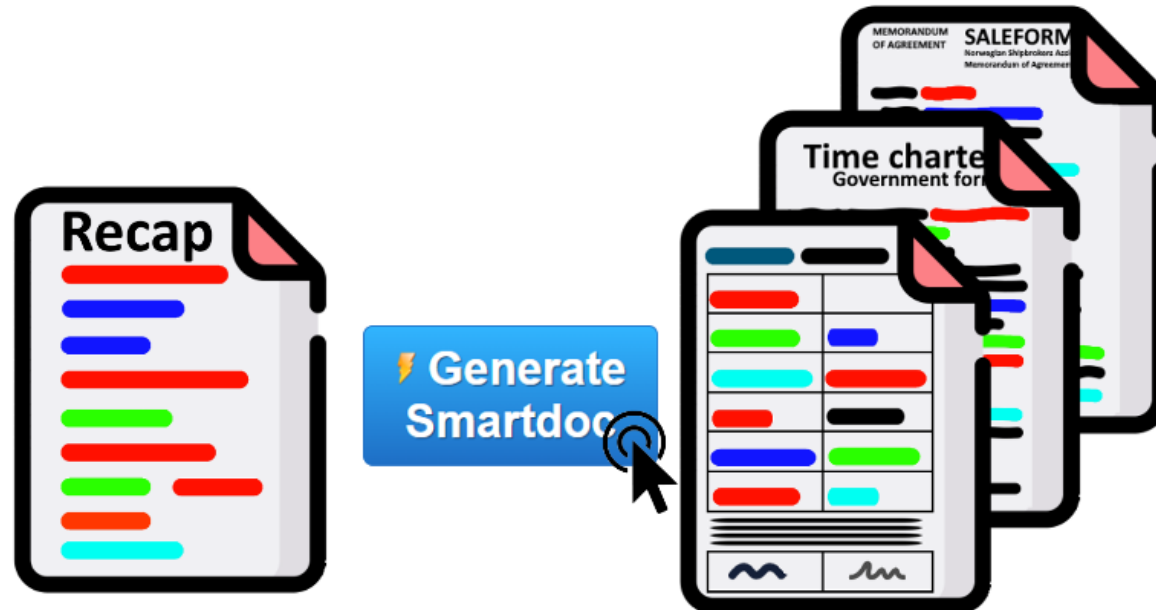

Chartering and Operations workflows meet at the Charter Party. Unafix is the cornerstone solution that streamlines this handover with powerful collaboration tools.”

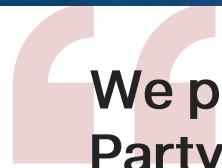

Unafix’ Recap Manager provides the negotiating chartering broker with a clear overview of to-do’s. Formalizing the recap into a Standard Form is a matter of minutes now, and automating that step has eliminated the risk of human error in the process.”

Bridging the gap between pre-fixture and post-fixture workflows with **data-automation**.

Take the recap, click the button and populate your Charter Party Standardized form. Completely automated, with the click of a button. It really can be *that* simple. Completely filled out Charter Party forms in seconds. No hassle, massive time savings and operational risk largely mitigated.

We provide maritime professionals with best in class Charter Party Editing software that helps them save time, mitigate risk and maintain full control over their commercial data.”

+ BIMCO & ASBA standard forms
Unafix is authorized by BIMCO and ASBA to provide copies of their standardized forms, such as GENCON, NYPE and BALTIME charter party editions.

+ Independently operated
Unafix is independently operated from the Netherlands by a dedicated team of professionals that understand the maritime industry and deliver on their promise.

+ Transparent pricing
We offer the best of class Charter Party Editor on the basis of pay-as-you-go pricing. No subscriptions, no recurring fees and no unexpected costs.

+ House forms, Recaps and Riders
Mitigate operational risks and human error with company centralized and standardized house forms, recap clauses and rider terms, shaving hours of each C/P you issue.

+ Your data is yours
Your commercial data is yours and yours only. We don't sell your data, not even anonymized, full stop.

+ Collaboration integrated
We facilitate collaboration with your team, contractual partners and other external partners. You always maintain control with clever permission management.

Unafix offers clever ways to streamline workflows. Checking and producing a COA, Time Charter or Voyage Charter is easier than ever as the data of the underlying recap is automatically used.”

A Charter Party Editor from maritime professionals for maritime professionals

Advanced Unafix users have several ways at their disposal to significantly reduce the amount of time they spent on a charter party. An increase in the degree of automation, results in a decrease of human error in Charter Party output and less time spent on the sometimes tedious task of Charter Party drafting.

Smarter as per last

Easily find a previously executed Charter Party, copy it, amend it to the newest voyage details and finalize it for your most recent C/P.

Rider set standardization and centralization

Draft and maintain your rider terms in Unafix to benefit from having flexible company wide, centralized rider terms collection going forward.

House form templates

Customize any BIMCO or ASBA standardized form to your companies' precise needs and re-use it time after time.

Recap Manager PRO

Unafix Recap Manager PRO offers the perfect balance between using your own clauses library, and complete flexibility to the Chartering Broker.

Automatic Standard Form generation

Recap Manager PRO allows you to automatically generate a filled-in Charter Party form on the basis of the recap details, or even straight from your FMS / VMS if you choose to integrate them with Unafix.

Let's get to know each other. Contact us to schedule a free product demo, or get more information about our pilot program.
